

MEDIAVIEW Live

MediaView Live is Ecast's events platform for streaming and recording of live content:
Events, Seminars, Webinars, Conferences, Training and Communication.

Live events are recorded and are available immediately post event for on demand viewing on the live page and by upload to an existing website or to MediaView.

- authenticate viewers or send a link to view
- online registration with optional payment gateway
- pause and rewind the live feed
- interact with the chat function
- display visual presentations on a separate screen
- download options for related materials
- watch on any device
- comprehensive reporting functions

MediaView Live events can be produced from:

PC or laptops
(requires software install)

Small studios
(Custom installation or hire options)

On location
(production teams available at any venue)
